PROFESSIONAL SUMMARY

DevOps Engineer with 4 years of experience in **Linux administration, CI/CD pipelines, automation, Kubernetes, Jenkins, Git, and cloud-native infrastructure**. Strong background in maintaining production systems, writing deployment scripts, troubleshooting networking issues, and supporting scalable application delivery. Adept at optimizing pipelines, containerizing workloads, and ensuring systems remain in a deployable state. Seeking a DevOps role to build and maintain efficient, reliable CI/CD systems.

TECHNICAL SKILLS

CORE SKILLS FOR DEVOPS ROLE

CI/CD & RELEASE ENGINEERING

- Jenkins (Pipeline, Multibranch, Groovy), GitHub Actions
- CI/CD pipeline creation, optimization, and maintenance
- Artifact management & promotion workflows
- Ensuring applications remain in a deployable state

Containerization & Orchestration

- Docker, Kubernetes
- Helm Charts (deployment, templating, umbrella charts)
- Cloud-native deployment verification

Version Control & Code Management

- Git, GitHub
- Branching strategies, repository maintenance

Linux & Infrastructure

- Red Hat / CentOS administrative expertise
- LVM, systemd, networking, performance tuning
- IPMI-based provisioning, OS installs, and infra automation

Scripting & Automation

- Bash, Python
- Deployment scripting, monitoring automation

Networking

- Troubleshooting, routing, DNS, NTP, SSL, firewall rules
- Hands-on experience with TCP/IP fundamentals

Monitoring & Observability

- Zabbix, Nagios, Checkmk, Uptime Robot

Cloud & IaC

- AWS (EC2, S3, IAM, VPC, SG, NACL)
- Terraform (infrastructure provisioning)

PROFESSIONAL EXPERIENCE

DevOps / Senior Systems Engineer

Met Clouds Technologies Pvt. Ltd., Kochi, Kerala

Sep 2025 – Present

- Developed and maintained CI/CD processes ensuring continuous deployable product states.
 - Automated OS provisioning using IPMI, enabling script-driven remote deployments.
 - Performed system monitoring, log analysis, and root-cause troubleshooting for production issues.
 - Implemented secure Linux environments with SSH hardening, network configuration, and routing.
 - Created deployment automation scripts in Bash/Python for application rollout.
 - Monitored system performance (CPU, memory, disk) and optimized infrastructure reliability.
 - Managed Windows & Linux environments supporting application runtime dependencies.
-

DevOps Engineer (CI/CD & Infrastructure)

Inavan India Technologies Pvt. Ltd., Kochi, Kerala

Oct 2023 – Aug 2025

- Built and maintained Proxmox-based infrastructure for VM deployment and environments.
- Created automated scripts to detect failures and trigger alerts for faster remediation.
- Configured Zabbix monitoring agents, integrating proactive alerting into infrastructure workflows.
- Executed migrations across nodes, ensuring zero-downtime deployment for critical systems.
- Managed Git repositories for internal tooling and deployment configurations.
- Supported CI/CD readiness by coordinating with development teams

for builds, releases, and issue resolution.

- Performed security audits (firewall, ModSecurity, TCP Wrappers) and resolved identified vulnerabilities.
 - Designed backup automation workflows using Synology NAS, AOMEI, and CBackup.
-

Linux Administrator / DevOps Support Engineer

Nelux Technologies Pvt. Ltd., Thrissur, Kerala

Dec 2021 – Sep 2023

- Administered RHEL/CentOS servers and maintained high-availability hosting environments.
 - Automated monthly server audit reports using Bash scripting.
 - Created secure server environments via SSH/Apache hardening and package configuration.
 - Monitored infrastructure using Nagios, analyzing alerts for fast troubleshooting.
 - Executed migrations (sites, servers, databases, mail) ensuring seamless transitions.
 - Performed malware detection and remediation across Linux servers.
-

EDUCATION

Bachelor of Science (B.Sc.) – Electronics

Calicut University, Kerala

Jul 2017 – Mar 2020

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
 - cPanel & WHM Administrator Certification (CWA)
 - cPanel & WHM System Administrator I (CWSA-1) & II (CWSA-2)
 - LiteSpeed Certification
 - SafeAdmin Certification
-

PERSONAL DETAILS
